

MO SAIC

PROFESSIONAILS

Dear Client / Mosaic lover,
You are holding in your hands Mosaic catalogue.
This is our message especially for you. Both
Mosaic enthusiasts and nail professionals can find
inside something useful and new to discover, learn
more about the variety of our products and how to
implement them in your daily work.

We truly love what we do and want to share our
skills and knowledge with you. We aim to be bigger
than just a colorful pot on your working table. We
aim to be your soulmate (or companion) - on the
way to a unique world of amazing nail design. Most
recent trends, first hand details about our products,
safe and ergonomic package - Mosaic knows how
to do it the right way.

Olesja Nikolenko

Creative director and founder of Mosaic Nail
Systems

Nail & Cuticle oil

5 ml & 15 ml

Dry cuticles? Not anymore!

This oil has long lasting hydrating and nail strengthening effect. With extract of 6 oils, mastic gum serum and 5 vitamins it is a real vitamin-bomb and best treatment for any cuticles.

- Powerful combination of 6 oils
- Mastic gum serum
- Vitamins A,B,C,D,E and F

d'Arc / Extra strong builder gel
5 ml, 15 ml, 50 ml

One-phase self-leveling builder gel. Medium viscosity. Very strong after curing. Superb adhesion. Perfect for everyday work and amazing for competitions.

- Extra strong formulation
- Universal
- One of the most popular builder gels
- Some call it - super gel

Curing time:

Foil gel

7 ml

The art of foil manicures is not a secret when you use Foil gel. This special clear gel with a strong and thin tacky layer is the best option for foil applications.

Remove background tacky layer before Foil gel application. Matte after curing and very very sticky

Tip: for large foil applications, apply Ultrabond Primer on top of foil before Top gel.

- Strong thin tacky layer
- Clear
- Fail proof foil application

- ⌚ Curing time:

Bifröst gel

5 ml

A glitter chaos in the jar!

Beautiful mixture of different kinds of shapes and effects with clear base. Name refers to a famous bridge from a legend of an ancient Nordic God-Thor. Can be applied on any surface. Looks brighter on black.

We love to use the combination of Bifröst and Vitra glass gels.

- One of its kind rainbow effect gel
- Flexible
- Can be used with gel polish

- Curing time:
- LED – 30 sec
 - UV – 2 min

- This product needs:
- Base

Spider gel

5 ml

Thin straight lines or thick curves. Spider gel is a new era of drawing. From fine geometry to floating curves. All straight from the jar with zero drawing experience. IT is a fun stage of nail art. We use real high-quality glitter in Gold, silver and Rose gold Spider gels to make them more luxury and showy.

- Real sparkling glitter
- Bright neons and pastels even in thin lines
- Easy failproof application

Curing time:

- LED – 60 sec
- UV – 2 min

This product needs:

- Base

thINK pigment

10 ml

thINK is a liquid high-quality pigment that dries on air leaving colour spots. You can easily control these "clouds" or apply tiny colour spots with liner brush fitted to the cap thINK design!

This product needs:

- Base
- Top

thINK Glitter

10 ml

thINK Glitter is a higher pigmented liquid solution with tiny sparkling Gold or Silver glitter. After drying on air, glitter remains on its place so all you need is to seal it with the Top gel.

This product needs:

@tsnailworks

Mosaic is known for taking good care of design. We want our cover/package to be as good as our content, always handy and ergonomic.

For our package we pick up bright colours and play with shapes. Our products are always visible on your working table.

STEP 1 in
manicure process

Freshner

15 ml

Fast evaporating dehydrator. **It is Step 1 in nail preparation.** Use before primer to remove all moisture. Removing moisture from the nail plate strengthens the bond between the natural nail and gel product. The nail will appear dry after applying. Freshner may be applied twice for very moist nails.

Characteristics:

- Removes moisture and grease from the nail
- Improves the bond between nail and gel
- Easy preparation before Ultrabond Primer or BondX application

STEP 2 in
manicure process

Ultrabond Primer

15 ml

Ultrabond Primer is an acid-free bonding solution. **It is Step 2 in nail preparation.** Apply after Freshner (or Starter Liquid). Ultrabond Primer helps gel layer bond with the natural nail. The nail should appear matte after application. If too much is applied and the surface looks wet, use a wipe to remove the excess.

Apply Ultrabond Primer on the natural nail only! There is no need to apply it on the artificial surface. An exception can be made if you don't know what product was used previously. Ultrabond Primer can also be used to overlay designs made with acrylic paints, before applying top gel. It will improve adhesion.

Characteristics:

- Most popular bonding solution
- Acid-free formula for safe application

STEP 2 in
manicure process

Bond X

8 ml

Adhesion booster. Bond X is an acid-free bonding solution. **It is Step 2 in nail preparation.** Apply after Freshner (or Starter Liquid). Replaces Ultrabond Primer.

Bond X particles are smaller than Ultrabond Primer and can penetrate the nail layers deeper. The nail surface is left with a sticky residue. Bond X provides maximum adhesion for all products. For best results flash cure for 10 seconds. Bond X can be applied in 2 layers for maximum adhesion.

Bond X may also be used:

- After filing to hide small lines
- In the line where gel meets natural nail (minor lifting)
- Before top gel if the customer has a small amount of visible lifting in the cuticle area

Characteristics:

- Unique adhesion booster
- Universal bonding solution for gel, acrylic or nail polish
- Deep penetrating

We call it **STEP 0** in manicure process

Starter
300 ml

Is a 0 step of a proper manicure. 100% effective cleaner without any additions of oils and aromas. Use after you remove any old product and before applying Freshner. It eliminates all oils and dirt which can affect gel application. Can be used instead of Freshner, however we recommend to use Freshner for cuticle area, where wiping with Starter liquid may not be effective.

Effective cleaner with nice aroma

Finishing Wipe
500 ml

Finishing wipe liquid is an ethanol-based solution for removing dispersion layer. Light aroma with a high concentration of ethanol makes this liquid very effective and popular.

Characteristics:

- Effectively removes dispersion layer
- Dries without residue
- High ethanol concentration
- Pleasant aroma

Manicure freshener

Super Shine
50 ml, 150 ml

A very special solution of cleaner and oil. Perfect cleaner for top gel. Makes top coat more glossy and nourishes cuticles at the same time! With a nice gentle aroma too!

Characteristics:

- Universal top coat wipe solution
- Leaves nails more glossy
- Nice aroma

Rubber Base /
Clear
14 ml

No more lifting! Clear base gel with superb adhesion to natural nail. It is a real problem-solver in cases when you don't know what else can be done. Can be used as a base layer for any gel product.

- Very flexible gel with super adhesion
- Suitable for thin and weak nails
- Soak off

Rubber Base PRO /
Clear
14 ml

Crystal clear Rubber base with thinner viscosity and extreme adhesion.

Curing time:
▪ LED – 60 sec
▪ UV – 2 min

Rubber Base /
Nude Beige
14 ml

Fast nude cold-shaded manicure with a powerful no lifting rubber gel formulation and beautiful elegant sparkling shimmer. Salon ready solution out of the bottle. Can be used as a base layer for any gel product.

This product needs:
▪ Base
▪ Top

Rubber Base /
Nude Pink
14 ml

Fast nude warm shaded manicure with a powerful no lifting rubber gel formulation and beautiful elegant sparkling shimmer. Salon ready solution out of the bottle. Can be used as a base layer for any gel product.

Rubber Base /
Nude Blush
14 ml

Fast nude warm shaded manicure with a powerful no lifting rubber gel formulation and beautiful elegant sparkling shimmer. Salon ready solution out of the bottle. Can be used as a base layer for any gel product.

Tip: For better adhesion of colour or Top coat, it is recommended to remove tacky layer of the Rubber base after curing.

No more lifting

One of our best-selling gels is now in colour.

Flexy top gel

15 ml

Ultimate protection of colours from fading in the sun. Formulation with high UV-block. Customers favorite for bright manicures in the summer. High glossy.

- High UV block
- Flexible

Curing time:

- LED – 30 sec
- UV – 2 min

Perfect top

15 ml

Perfect in all means. Best selling top gel. Can be applied thicker to overlay accessories and doesn't run to the cuticles. Thixotropic formulation. Doesn't lose its gloss during wear.

- Flexible
- Scratch resistant

Curing time:

- LED – 30 sec

LED lamp

PROLed lamp is a 36W Led lamp with 10.30.60 sec timer and auto-on function. Silent in use. Cure all gels in a range 365+405nm wavelength. Rising power steps of the lamp help to minimize the burning effect of the gels to minimum value. Most customers will not feel heat at all!

PROGRESSIVE

The PROgressive step is available on 60 sec only, which we suggest to use for all layers thicker than gel paint or gel polish.

- Real low heat curing
- Perfect proper curing

Clear builders / Ice 5 ml, 15 ml, 50 ml

One-phase self-leveling very liquid gel. The strongest builder gel in Mosaic series. Absolutely clear and can also be used as a Top Gel. Very rigid in a thin layer. Most widely used as a base coat longer extensions. Low-heat formula.

- Perfect base for long extensions
- The strongest gel in Mosaic
- Perfectly clear after curing

⌚ Curing time:

- LED – 1 min (Pinch at 8-12 sec)
- UV – 2 min (Pinch at 20-30 sec)

Special liquid solution / A&G Liquid
150 ml

Makes shaping with Acrylic gel more comfortable and fast.

Acrylic brush #1 & #2

Developed specially for Acrylic gel. Durable and comfortable mixed hair.

UV LAC Base coat

15 ml

Uv-Lac Base is a flexible soak-off base coat with strong adhesion properties. It is used as a base for gel polish but can also be used as a base for any builder gel or acrylic gel.

- Very thin and flexible
- Excellent adhesion
- Soak off

Tip: Slightly remove the tackiness with a dry builder brush to improve adhesion of the base coat to a builder coat.

- ⌚ Curing time:
- LED – 30 sec
 - UV – 2 min
- ⚠ This product needs:
- Top

Architect X

15 ml

Flexible soak-off base coat with a thicker viscosity. Allows creation of a perfect nail plate very quickly. Ideal base for nail strengthening and smooth, even color coat application.

- Quickly smooths the nail plate
- Flexible and soak off
- Thicker viscosity base for advanced applications

Tip: Slightly remove the tackiness with a dry builder brush to improve adhesion of the base coat to a builder coat.

- ⌚ Curing time:
- LED – 30 sec
 - UV – 2 min
- ⚠ This product needs:
- Top

Rubber base

14 ml

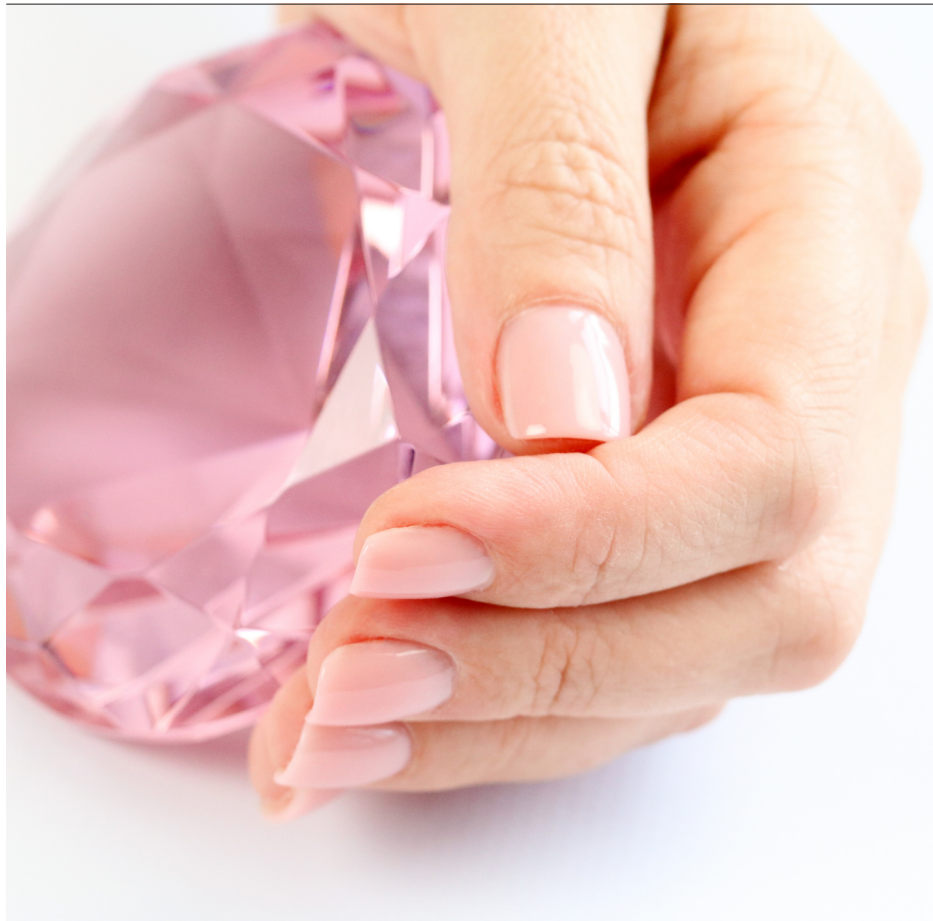

Rubber Base is a flexible soak off base gel for natural nail overlay and strengthening. It is very flexible and thus very durable even on thin and weak nails. Can be overlaid with a colour coat. Must be sealed with top coat.

- Flexible and extra durable
- Chip proof
- Great for weak and thin nails

Tip: For better adhesion of colour or Top coat, it is recommended to remove tacky layer of the Rubber base after curing.

- ⌚ Curing time:
- LED – 60 sec
 - UV – 2 min
- ⚠ This product needs:

50 ml, 250 ml

A truly rich hand cream in all aspects. Fast absorbing and non-greasy. Ceramides, shea-butter, macadamia seed oil and soybean oil make the cream ultra-moisturizing.

Vitamin A effectively stimulates skin cell division, while vitamin E protects skin from harmful uv light. D-panthenol and Allantoin are effective for fast skin regeneration.

Available in 3 richly-perfumed aromas in 50ml tubes and 150ml salon-size pump bottles.

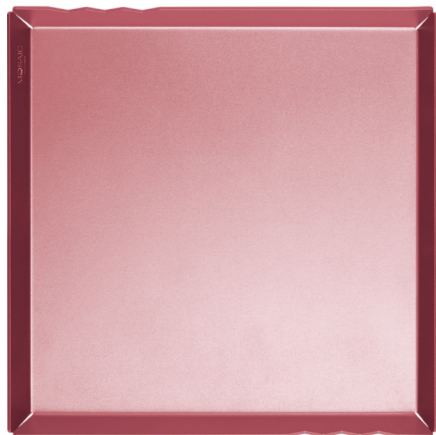

- Fast absorbing
- Non greasy
- Ultra moisturizing

FOR EVERY MINUTE SPENT ORGANIZING - AN HOUR IS EARNED

MOZAIC

Rose gold large — 235 x 235 mm

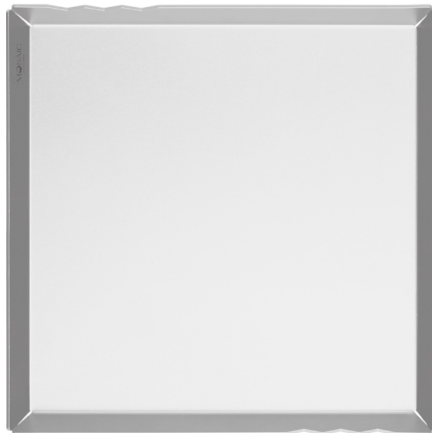

Rose gold small — 235 x 158 mm

Minimalistic aluminum tray is a beautiful way to keep your products organized on your working desk. Designed by Estonian industrial designer specially for Mosaic. Manufactured from anodized aluminum.

Small silicone pads keep the tray stable and fixed on the desk. V-shape cutouts help to keep your builder brush while not in use.

Nail tray

Organizing workplace is a very important thing. "For every minute spent organizing - an hour is earned."

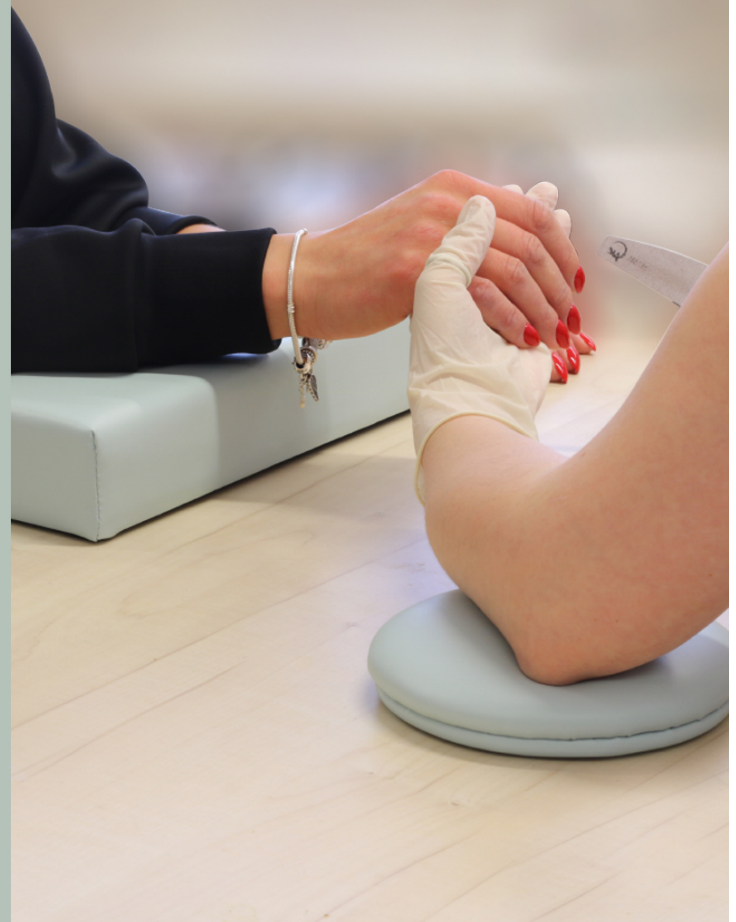

Silver large — 235 x 235 mm

Silver small — 235 x 158 mm

MOSAIC

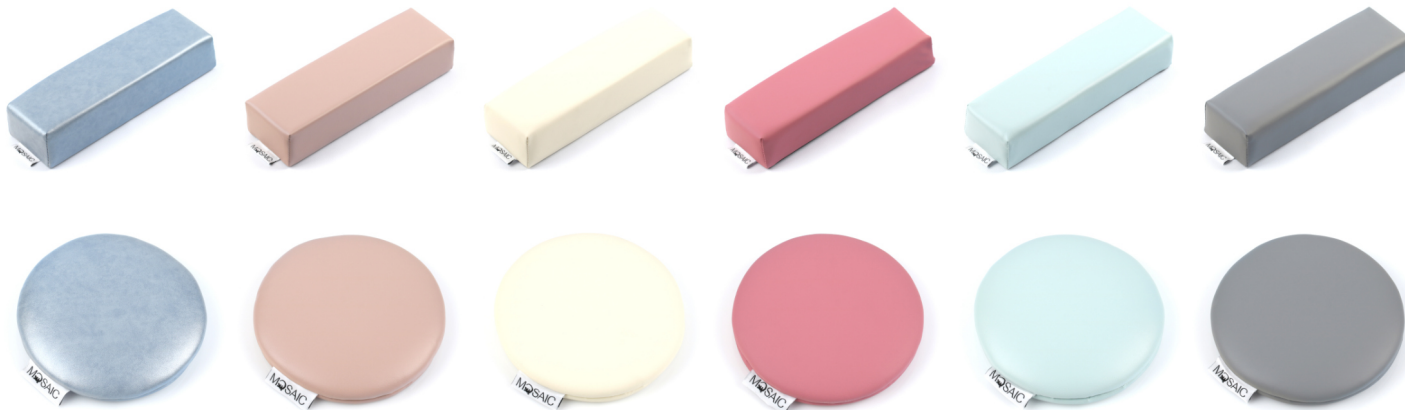

Take care
of your most
valuable
instrument

Workplace ergonomics is highly important. One of the most common problems is the pain in the elbow caused by wrong sitting position. We insist, that you must take care of your most valuable instrument- your body!

Our elbow round pads and hand cushions are made of eco-leather and filled with responsive foam. Mix and match 6 beautiful colors!
